Library Login

- Use your **NPS login and password** when prompted to log into a library service
- Enables access to our licensed web-based resources from off campus
- Needed to request materials from us
- If you have trouble logging in, contact circdesk@nps.edu or call (831)656-2947
Search our FAQ 24/7, and if you need further help, contact us!
Use the **search box** on the library’s homepage to find books, ebooks, articles, and other materials the library owns or has online.

Use:

- **Journal Titles** to determine if the library has a specific journal
- **Databases List** to access our Research Databases.
- **NPS Theses** to search for NPS Theses
Search for articles, books, ebooks, journals, theses, and more.

When to use it:

- You're just starting your research, and want to get a broad overview of what's available
- You want access to a wide variety of material types from one search
- You're looking for a specific item and know the title, such as an article, book, ebook, etc.

Ways to Refine Your Search Results

- Refine results (using options on right side of results list)
  - “Find even more” to expand beyond what our library has
  - “Show Only” to limit to only online materials, scholarly journals, physical materials, etc.
  - “Material Type” to limit to articles, books, NPS theses, etc.
  - Take a look at the other Refine options!
Ways to Improve Your Search Strategy

- Click on **New Search** to start over and to see search tips
- Use **Advanced Search** to search specific fields (author, title, etc.), to limit up-front to particular material types, and more
This search looks for **articles** in **English** published between **2015** and **2017** that have permutations of the words **manag** (manager, managing, management, etc.) and **contract** (contract, contracts, contracting, contractor, etc.) in the **title**.
This is a section from the list of search results
Example of a detailed record for an item in our results list. In this case it’s an article.

Click on the link(s) listed under Full text availability to get access to the full text. If for some reason that doesn’t work, request that we get it for you using Request Article or Book. More on that shortly!

Available from 1922 volume: 1 issue: 1
Sometimes you may want to search a specific research database:

- The library search includes many of our research databases, but it does not include all of them.

- Even for those it does include, you can better target your research when you search an individual database (using full-text searching, database-specific terminology, etc.).

- Results in a database are often more current than those from the library search.
Databases with the NPS logo next to them are licensed for NPS users only. If you are not already logged in you will be prompted for your NPS login and password after you click on one.

Alternatively, you can come in through the VPN
Search for articles, reports, primary sources, news, statistics and more.

Use Google Scholar to find “scholarly” materials such as articles, theses and reports

To gain access to online resources that the library has paid for:

• **Come in through the VPN** prior to doing your research so that you are recognized as coming from the NPS domain
• Click on **Settings** to configure **Library Links** to be recognized as being from Naval Postgraduate School so you can easily click through to see if our library has alternative access to the document you need and to request that we obtain it for you if we don’t already have access to it.
The Get it @NPS Knox Library link helps you to access or request through our library if other links don’t bring you to the full text.
